

Portfolio Committee  
Dripping Springs High School  
940 Highway 290 West  
Dripping Springs TX, 78620

Dear Portfolio Committee,

Today I will present to you my portfolio representing my aspirations and hopes while attending Dripping Springs High School. Throughout my high school career I have participated in a few clubs, volunteered at multiple events, and have competed in several exciting competitions. I will share with you my passions and goals for the future during the course of this presentation.

During my time here in Dripping Springs High School I have attended many difficult and challenging classes and clubs. The robotics competitions that I participated in were some of the most enjoyable times during my time here. I have also attended a lot of classes that were very challenging and rewarding such as AP Calculus BC, AP Physics, AP Chemistry, and AP Computer Science.

Next year I will be attending ACC and be taking basic computer science courses with the goal of transferring into University of Texas Austin in two years time.

Over my time at Dripping Springs High School I have learned many things that will help me through my life in the academic aspect as well as in other ways. I have learned to be more social and become more involved in my community to help others. Thank you for reviewing this letter and listening to my presentation.

Sincerely, Jose Teuttli
